Adolescents in the treatment group were significantly more likely to understand issues of human sexuality, sexual development, and STDs. Both sexes fed on flowers during the mornings and late afternoons, while in the early afternoons males perched in aggregations with some features of typical leks. Who is the one who has been bringing home all the money to support you fools while all you have been doing in the last 40 years was just slicing onions and potatoes and throwing into a pot. Scientists looking to evaluate or to replicate the published work, or the general public whose taxes may have funded the project both need more detail, not simply a statement of IACUC approval, to make their evaluations. Doc Con X - November 3.
